## Important Safety Instructions

Do not use the product before you have studied the User Manual on the enclosed CD or on our Homepage.

If you have no such manual, or it is in the wrong language, please ask your agency for an appropriate copy.

The product is permitted to use for skilled persons only.

### CAUTION:

Use of controls or adjustment or performance of procedures other than those specified herein may result in hazardous radiation exposure.

### WARNING:

- It is a **Class 2** laser product in accordance with IEC 60825-1:2014

- Do not attempt to modify the performance of this laser device in any way. This may result in a dangerous exposure to laser radiation.
- Do not operate the tool outdoors.
- Do not attempt to repair or disassemble the laser-measuring tool. If unqualified persons attempt to repair this product, serious injury may occur. Any repair required on this laser product should be performed only by qualified service personnel.
- Do not stare into the laser beam or direct it towards other people unnecessarily.
- Don't dazzle other individuals.
- Looking directly into the beam with optical aids can be hazardous.
- Do not operate the product in explosion hazardous areas or in aggressive environments.
- Only use chargers recommended by the manufacturer to charge the batteries.
- Keep extremities in a safe distance from the moving parts.
- Watch out for erroneous measurements if the product is defective or if it has been dropped or has been misused or modified.
- Carry out periodic test measurements. Particularly before, during and after important measurements.
- The product and batteries must not be disposed of with household waste.

## Overview

The safety instructions and the user manual should be read through carefully before the product is used for the first time.

The person responsible for the product must ensure that all users understand these directions and adhere to them.

## Display

## Insert batteries

Change batteries when battery symbol is empty.

## Operations

### Switching ON / OFF

ON

OFF

5 sec

Device is turned OFF.

**i** If no key is pressed for 120 sec, the device switches off automatically.

## Measurement Reference

## Unit setting

0.000 m
0'00" 1/16
0 1/16 in
0.00 ft

## Measuring Functions

### Continuous measuring

### Area

### Volume

7

i

The result is shown in the main line and the measured distance above.

## Reset

1

1.5 sec

i

Long press FUN button for 1.5seconds to return back to initial state.

## Addition/subtraction

1

3X

4X

Press button to Addition/Subtraction mode

2

Measure the first data.

3

Then measure the second data.

4

The result is shown in the main line and the measured distance above.

General	
Maximum measuring range*	1-135ft / 0.30-40m (measure from top side)
Measuring accuracy*	± 1/8 in ± 3 mm
Measuring units	ft+inch/m/ft/inch
Laser class	2
Laser type	620nm - 690nm
Autom. power switch-off	120s
Autom. laser off	30s
Battery durability (2 x AAA)	up to 3000 measurements
Dimension(LxWxH)	6.1 x 0.91x0.71 in 155x23x18 mm
Weight (without batteries)	1.41oz / 40g
Operation Temperature	32 to 104 °F 0 to 40 °C
Storage Temperature	14 to 140 °F -10 to 60 °C

\* The typical measurement uncertainty of  $\pm 3$  mm is valid for measurements on white, diffusive, reflective targets up to 5 m at low ambient light and moderate temperatures. For distances greater than 5 m, the measurement uncertainty could increase additionally by 0.1 mm/m. In unfavourable conditions (such as bright sunlight, targets with poor reflectivity, or high or low temperatures) the measurement uncertainty could further increase up to  $\pm 8$  mm for distances below 5 m and additionally by roughly 0.15 mm/m for distances greater than 5 m.

## Error, faults & troubleshooting Care

Faults	Cause	Solution
IC401	Low battery	Change batteries
IC201	The environment is too bright	Change to a darker environment for test
IC303	Received signal too weak or Out of measuring range	Improve the reflective surface. (Use target plate, white paper) Measuring the distance within measurement range.
IC102	Received signal too strong	Improve the reflective surface. (Use target plate, or don't aim at strong light)
IC505	Hardware error	Switch on / off the device, if the symbol still appears after several times, please contact with your dealer.

- Clean the device with a damp, soft cloth.
- Never immerse the device in water.
- Never use aggressive cleaning agents or solvents.

## Disposal

The battery must not be disposed of with household waste. Care for the environment and take them to the collection points provided in accordance with national or local regulations. The product must not be disposed with household waste.

Dispose of the product appropriately in accordance with the national regulations in force in your country. Adhere to the national and country specific regulations. Product specific treatment and waste management can be downloaded from our homepage.

## Safety Instructions

The person responsible for the instrument must ensure that all users understand these directions and adhere to them.

### Symbols used

The symbols used have the following meanings:

#### WARNING

Indicates a potentially hazardous situation or an unintended use which, if not avoided, will result in death or serious injury.

#### CAUTION

Indicates a potentially hazardous situation or an unintended use which, if not avoided, may result in minor injury and/or appreciable material, financial and environmental damage.

**i** Important paragraphs which must be adhered to in practice as they enable the product to be used in a technically correct and efficient manner.

### Permitted use

- Measuring distances

### Prohibited use

- Using the product without instruction
- Using outside the stated limits
- Deactivation of safety systems and removal of explanatory and hazard labels
- Opening of the equipment by using tools (screwdrivers, etc.)
- Carrying out modification or conversion of the product
- Use of accessories from other manufacturers without express approval
- Deliberate dazzling of third parties; also in the dark
- Inadequate safeguards at the surveying site (e.g. when measuring on roads, construction sites, etc.)
- Deliberate or irresponsible behaviour on scaffolding, when using ladders, when measuring near machines which are running or near parts of machines or installations which are unprotected
- Aiming directly in the sun

### Hazards in use

#### WARNING

Watch out for erroneous measurements if the instrument is defective or if it has been dropped or has been misused or modified. Carry out periodic test measurements. Particularly after the instrument has been subject to abnormal use, and before, during and after important measurements.

#### CAUTION

Never attempt to repair the product yourself. In case of damage, contact a local dealer.

#### WARNING

Changes or modifications not expressly approved could void the user's authority to operate the equipment.

### Limits of use

**i** Refer to section "Technical data".  
The device is designed for use in areas permanently habitable by humans. Do not use the product in explosion hazardous areas or in aggressive environments.

## Safety Instructions

### Areas of responsibility

#### Responsibilities of the person in charge of the instrument:

- To understand the safety instructions on the product and the instructions in the User Manual.
- To be familiar with local safety regulations relating to accident prevention.
- Always prevent access to the product by unauthorised personnel.

### Electromagnetic Compatibility (EMC)

#### WARNING

The device conforms to the most stringent requirements of the relevant standards and regulations. However, the possibility of causing interference in other devices cannot be totally excluded.

### FCC statement (applicable in U.S.)

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

## Safety Instructions

### Laser classification

The device produces visible laser beams, which are emitted from the instrument: It is a Class 2 laser product in accordance with:

IEC60825-1 : 2014 "Radiation safety of laser products"

#### Laser Class 2 products:

Do not stare into the laser beam or direct it towards other people unnecessarily. Eye protection is normally afforded by aversion responses including the blink reflex.

#### WARNING

Looking directly into the beam with optical aids (e.g. binoculars, telescopes) can be hazardous.

## WARRANTY

Two-Year Limited Warranty. This product is warranted to the original purchaser from the original purchase date for two years subject to the warranty coverage described herein. Please retain your receipt. This product is warranted to the original user to be free from defects in material and workmanship. If you believe that the product is defective at any time during the specified warranty period, pls contact Prexiso customer service agent by sending email to [info@prexiso-eu.com](mailto:info@prexiso-eu.com). This warranty does not cover: (1) Part failure due to normal wear or product abuse; (2) Any parts have been altered or modified by anyone other than an authorized Prexiso personnel or failure to install and operate equipment according to the guidelines put forth in the instruction manual. (3) Any products or parts used for rental purposes, damage resulting from shipping (claims must be filed with freighter), accident, abuse, act of God, misuse, or neglect. Prexiso will replace or repair the defective unit, at its option, subject to verification of the defect. Any implied warranties arising from the sale of a Prexiso product, including but not limited to implied warranties of merchantability and fitness for a particular purpose, are limited to the above. Prexiso shall not be liable for loss of use of the product or other incidental or consequential damages, expenses, or economic loss, or for any claim of such damage, expenses, or economic loss. This warranty excludes any accessories. This warranty gives you specific legal rights, and you may also have other rights that vary from state.

## Labelling

Subject to change (drawings, descriptions and technical data) without prior notice.
